

Subject Index to Volume 229 (January-June 1999)

- Abdominal surgery, perioperative growth hormone therapy and functional outcome, 298
- Abscess, intraabdominal, imaging with ^{99m}Tc -PEG liposomes and ^{99m}Tc -HYNIC IgG (rat), 551
- Adenocarcinoma
colorectal. *See* Colorectal cancer
gallbladder, differential diagnosis via endoscopic ultrasonography, 498
- Adenoma, gallbladder, differential diagnosis via endoscopic ultrasonography, 498
- Adenomyomatosis, gallbladder, differential diagnosis via endoscopic ultrasonography, 498
- Adenosine, myocardial protective effect, in coronary artery bypass surgery, 643
- Adhesion molecules, intercellular adhesion molecule-1 monoclonal antibody therapy in acute pancreatitis (rat), 834
- Age/aging, survival in gastrointestinal tract carcinoids, 815
- Alveolar macrophages
in lung injury associated with acute pancreatitis (rat), 230
phospholipase A_2 -induced nitric oxide release, lung injury in acute pancreatitis (rat), 385
- Ampullary carcinoma, prognostic value of MIB-1 index and DNA ploidy, 523
- Analgesia
epidural vs. parenteral opioid analgesia for thoracic trauma, 684
topical local anesthetic for pain management in skin grafting, 115
- Anal ultrasound, in men with fecal incontinence, 739
- Anastomoses, colorectal, routine drainage of, 174
- Aneurysm, true aneurysms of pancreaticoduodenal arteries, 416
- Angiography, patency of internal thoracic artery grafts, 154
- Angioplasty, femoropopliteal, 146
- Animal studies
alveolar macrophage activation in lung injury associated with acute pancreatitis, role of liver (rat), 230
baboon sepsis, protective effect of bactericidal/permeability-increasing protein (rBPI $_{21}$), 262
gut cytokine balance in enterally and parenterally fed mice, 662
ICAM-1 antibody therapy in acute pancreatitis (rat), 834
imaging experimental intraabdominal abscesses with ^{99m}Tc -PEG liposomes and ^{99m}Tc -HYNIC IgG (rat), 551
impact of continuous venovenous hemofiltration on experimental pancreatitis (pig), 514
intestinal cytokine response to gut ischemia (rat), 478
in vivo T-cell response to cardiac allograft transplantation (mice), 570
lung injury in acute pancreatitis, phospholipase A_2 mediation of nitric oxide production by alveolar macrophages (rat), 385
nutritional influences on antibacterial respiratory tract immunity (mice), 272
organ apoptosis early after burn injury (mice), 851
progesterone and bile flow dynamics (prairie dogs), 205
prolonged continuous vs. intermittent vascular inflow occlusion during hemihepatectomy (pig), 376
restoration of lymphatic function after myocutaneous flap transfer (rodents), 421
skeletal muscle protein oxidative damage after burn injury (rat), 106
tolerance to septic shock, sublethal hemorrhage in (rat), 843
transgenic and knockout mice, models of surgical disease, 21
wound cell immune function after trauma-hemorrhage, wound infection and (mice), 651
- Antireflux surgery, laparoscopic
anatomic fundoplication failure after, 669
quality of life measures, 331
- APC gene mutations, identification of familial adenomatous polyposis coli families, 350
- Apoptosis, organ apoptosis early after burn injury (mice), 851
- Appendix, computed tomography, impact on negative appendectomy and appendiceal perforation rates, 344
- Aspartate transaminase, serum, hepatectomy risks in underlying chronic liver disease, 210
- Axillary dissection, sentinel node metastasis from breast cancer, 536
- Bacterial translocation, in multiple organ failure, lymphatic translocation of bacteria/endotoxin via thoracic duct, 128
- Bactericidal/permeability-increasing protein (rBPI $_{21}$), protective effect in *Escherichia coli* sepsis (baboon), 262
- Bariatric surgery, in pseudotumor cerebri, 634
- Barrett, Norman, 428
- Bile flow dynamics, effects of progesterone (prairie dogs), 205
- Bile leak, laparoscopic cholecystectomy and, 449
- Biliary stricture, reconstructive surgery for ischemic-type biliary strictures after liver transplantation, 137
- Biliary tract
bile duct cancer, lymph node involvement and neural plexus invasion in, 76
bile duct injury, laparoscopic cholecystectomy, 449
Editorial, 458
common bile duct stones, predictors, 362
decompression, palliative peripheral hepatojejunostomy for irresectable malignant tumors of liver hilum, 181
- Bilirubin conjugation, Crigler-Najjar syndrome type 1, auxiliary partial orthotopic liver transplantation and, 565
- Billroth I gastrectomy, laparoscopy-assisted, quality of life after, 49
- Billroth I pylorus-preserving pancreatoduodenectomy, gastric emptying after, recovery course and cisapride therapy, 223
- Bone disease, postgastrectomy (*letter*), 592
- Book reviews, 440, 591
- Breast biopsy, mammographically guided, comparison of techniques, 625
- Breast cancer
lymphatic mapping, 528
credentialing issues, 723
subareolar vs. peritumoral injection, 860
physician delay in diagnosis, 91
sentinel node metastasis, likelihood of nonsentinel node metastasis, 536
- Burn injury
organ apoptosis early after burn injury (mice), 851
pediatric hand burns, 558
skeletal muscle protein catabolism, effect of IGF-1/IGFBP-3 therapy, 713
skeletal muscle protein oxidative damage after (rat), 106
skeletal muscle protein synthesis, submaximal insulin administration, 11
topical local anesthetic for pain management in skin grafting, 115
- Calcium, postoperative tetany in Graves disease, 237
- Calculous disease, common bile duct stones, predictors, 362
- Carcinogenesis, transgenic and knockout mice models, 21
- Carcinoid tumors, gastrointestinal tract, 815
- Cardiac transplantation, in vivo T-cell response to cardiac allograft transplantation (mice), 570
- Cardioprotective agents, adenosine, 643

- Cardiovascular disease, transgenic and knockout mice models, 21
- Carotid endarterectomy, regression of recurrent stenosis after, primary closure vs. patching, 767
- Caspase-3, organ apoptosis early after burn injury (mice), 851
- Chemoradiation, preoperative, rectal cancer, locally advanced, 745
- Chemotherapy, neoadjuvant, for gastric cancer, 303
Editorial, 309
- Chest injury, epidural vs. parenteral opioid analgesia, 684
- Cholangiography, operative, in laparoscopic cholecystectomy, 449
- Cholecystectomy, complications
 open vs. laparoscopic procedure, 449
 risk factors for intraoperative injury (*Editorial*), 458
- Cholestasis, obstructive, palliative peripheral hepatojejunostomy for irresectable malignant tumors of liver hilum, 181
- Cholesterol polyp, gallbladder, differential diagnosis via endoscopic ultrasonography, 498
- Cirrhosis
 Child-Turcotte class B and C, partial hepatectomy for hepatocellular carcinoma in, prognostic factors, 84
 outcomes in hepatocellular carcinoma, 790
- Cisapride, for delayed gastric emptying after Billroth I pylorus-preserving pancreatoduodenectomy, 223
- Cocaine abuse, juxtaepiloric perforation, 801
- Colorectal cancer, survival, laparoscopic resection and, 487
- Computed tomography
 appendiceal, impact on negative appendectomy and appendiceal perforation rates, 344
 preoperative staging of non-small cell lung cancer, FDG-PET vs., 286
- Computerized nuclear morphometry, morphologic predictor for metastatic potential in gastric cancer, 55
- Coronary artery bypass surgery
 myocardial protective effect of adenosine, 643
 patency of internal thoracic artery grafts, 154
 skeletonized internal mammary artery graft, sternal wound infection, 585
- Crigler-Najjar syndrome type I, auxiliary partial orthotopic liver transplantation for, 565
- Critical care, enteral nutritional supplementation with key nutrients, 467
- Crohn's disease, transforming growth factor- β isoforms and their signaling receptors in, 67
- Cyclosporine, in orthotopic liver transplantation for hepatitis C, 824
- Cyst(s), hepatic, laparoscopic management, 460
- Cytokine(s)
 gut cytokine balance in enterally and parenterally fed mice, 662
 intestinal cytokine response to gut ischemia (rat), 478
- Desmoid tumors, 866
- Diet, nutritional influences on antibacterial respiratory tract immunity (mice), 272
- Disseminated intravascular coagulation, predictive value in posttrauma multiple organ dysfunction syndrome, 121
- DNA ploidy, prognostic value in ampulla of Vater carcinoma, 523
- Dopamine, "renal dose" (*letter*), 444
- Drainage
 percutaneous, pancreatic pseudocysts, 781
 routine drainage of colorectal anastomoses, 174
- Economic issues
 effect of patient complexity on costs and profit margins of trauma service, 807
 trauma center experience, survival, and resource utilization, 409
- Editorials
 an unacceptable concept (closed surgical ICU), 172
 evolution of surgical nutrition: nutrient and anabolic interventions, 19
 neoadjuvant therapy, 309
 risk factors for intraoperative injury during cholecystectomy, 458
- Eicosapentaenoic acid, supplementation, effects on postoperative stress response and stress-induced immunosuppression, 255
- Endoscopic ultrasonography, accuracy in differential diagnosis of polypoid lesions of gallbladder, 498
- Endotoxin, organ apoptosis early after burn injury (mice), 851
- Enoxaparin, lipopolysaccharide-induced TNF- α release from monocytes, 542
- Erythromycin, contractility of denervated stomach used as esophageal substitute, 337
- Escherichia coli* sepsis, protective effect of bactericidal/permeability-increasing protein (rBPI₂₁) (baboon), 262
- Esophageal carcinoma, cervical lymph node metastasis, ultrasonographic assessment, 62
- Esophageal substitute, denervated stomach, erythromycin enhancement of postoperative contractility, 337
- Esophageal surgery, Norman Barrett, "doyen of esophageal surgery," 428
- Esophagectomy, effects of soybean emulsion and eicosapentaenoic acid supplementation on postoperative stress response and stress-induced immunosuppression, 255
- Excisional biopsy, breast, mammographically guided, 625
- Familial adenomatous polyposis coli
 APC genotype, polyp number, and surgical options (*letter*), 445
 molecular and clinical approaches for identification of FAP families, 350
- Fatigue, postoperative, abdominal surgery, perioperative growth hormone therapy and functional outcome, 298
- Fecal incontinence, in men, anal ultrasound in, 739
- Femoropopliteal angioplasty, outcomes, 146
- Flap surgery, restoration of lymphatic function after myocutaneous flap transfer (rodents), 421
- ¹⁸Fluorodeoxyglucose-positron emission tomography (¹⁸FDG-PET)
 in pancreatic cancer, 729
 preoperative staging of non-small cell lung cancer, 286
- Fundoplication
 anatomic failure, after laparoscopic antireflux surgery, 669
 modified Rossetti fundoplication, 774
- Gallbladder
 effects of progesterone (prairie dogs), 205
 polypoid lesions, differential diagnosis via endoscopic ultrasonography, 498
- Gamma-glutamyl transferase, serum level, prediction of common bile duct stones, 362
- Gastrectomy
 distal, in radical pancreaticoduodenectomy for periampullary carcinoma, 613
 laparoscopy-assisted Billroth I gastrectomy, quality of life after, 49
 postgastrectomy bone disease (*letter*), 592
- Gastric banding. *See* Bariatric surgery
- Gastric cancer
 laparoscopy-assisted Billroth I gastrectomy, quality of life after, 49
 neoadjuvant chemotherapy, 303
 Editorial, 309
 prognostic value of computerized nuclear morphometry, 55
- Gastric emptying, after Billroth I pylorus-preserving pancreatoduodenectomy, recovery course and cisapride therapy, 223
- Gastroesophageal reflux disease
 in children, modified Rossetti fundoplication for, 774
 laparoscopic antireflux surgery, 331
 anatomic fundoplication failure after, 669
- Gastrointestinal cancer
 enteral nutritional supplementation with key nutrients, 467
 growth hormone alone/plus insulin, postoperative protein kinetics in upper GI cancer patients on TPN, 1
- Gastrointestinal tract
 carcinoid tumors, 815
 intestinal cytokine response to gut ischemia (rat), 478

- juxtapyloric perforation, cocaine-related, 801
- Gender, survival in gastrointestinal tract carcinoids, 815
- Gene mutation(s), APC germline mutations, identification of familial adenomatous polyposis coli families, 350
- Glucose metabolism, after hepatectomy, 505
- Graves disease, postoperative tetany, 237
- Growth hormone
- perioperative treatment, functional outcome after major abdominal surgery, 298
 - postoperative protein kinetics in upper GI cancer patients on TPN, 1
- Gut motility, transgenic and knockout mice models, 21
- Helicobacter pylori*, in cocaine-related juxtapyloric perforation, 801
- Hemofiltration, impact of continuous venovenous hemofiltration in experimental pancreatitis (pig), 514
- Hemorrhage, sublethal, cross-tolerance to septic shock (rat), 843
- Hemorrhagic shock, wound cell immune function after trauma-hemorrhage, wound infection and (mice), 651
- Heparin, lipopolysaccharide-induced TNF- α release from monocytes, 542
- Hepatectomy
- continuous vs. intermittent portal triad clamping, 369
 - glucose and lactate metabolism after, 505
 - for hepatocellular carcinoma, zero hospital mortality rate, 322
 - partial
 - for hepatocellular carcinoma, 790
 - hepatocellular carcinoma in Child-Turcotte class B and C cirrhosis, 84
 - prolonged continuous vs. intermittent vascular inflow occlusion during hemihepatectomy (pig), 376
 - risks in underlying chronic liver disease, 210
- Hepatojejunostomy, reconstructive surgery for ischemic-type biliary strictures after liver transplantation, 137
- Hepatitis C virus, orthotopic liver transplantation for, 824
- Hepatocellular carcinoma
- in Child-Turcotte class B and C cirrhosis, partial hepatectomy, prognostic factors, 84
 - hepatectomy, zero hospital mortality rate, 322
 - intrahepatic recurrence, prognosis, 216
 - Western, partial hepatectomy and outcomes, 790
- Hepatojejunostomy, palliative peripheral hepatojejunostomy for irresectable malignant tumors of liver hilum, 181
- Hirschsprung's disease, laparoscopic-assisted endorectal colon pull-through procedure, 678
- Historical perspectives
- John Collins Warren and his act of conscience, 187
 - Norman Barrett, "doyen of esophageal surgery," 428
- HLA-DR expression, in posttraumatic sepsis, 246
- Hydatid cyst, hepatic, laparoscopic management, 460
- Hyperparathyroidism, hypnosedation for parathyroid surgery, 401
- Hypnosedation, for parathyroid surgery, 401
- Idiopathic intracranial hypertension. *See* Pseudotumor cerebri
- Ileal pouch-anal anastomosis, pouch revision, 197
- Immune function, postoperative, effects of soybean emulsion and eicosapentaenoic acid supplementation on postoperative stress response and stress-induced immunosuppression, 255
- Immune response, spleen autotransplantation, humoral immune response to pneumococcal capsular polysaccharide immunization, 279
- Immunology
- transplantation, transgenic and knockout mice models, 21
 - wound cell immune function after trauma-hemorrhage, wound infection and (mice), 651
- Immunosuppression
- effects of soybean emulsion and eicosapentaenoic acid supplementation on postoperative stress response and stress-induced immunosuppression, 255
 - in orthotopic liver transplantation for hepatitis C, 824
- Immunotherapy, orthotopic liver transplantation for hepatitis C, 824
- Inflammatory bowel disease, transgenic and knockout mice models, 21
- Inflammatory mediators
- impact of continuous venovenous hemofiltration in experimental pancreatitis (pig), 514
 - lipopolysaccharide-induced TNF- α release from monocytes, heparin and enoxaparin and, 542
- Insulin
- growth hormone plus, postoperative protein kinetics in upper GI cancer patients on TPN, 1
 - submaximal, skeletal muscle protein synthesis in burn injury, 11
- Insulin-like growth factor-I/insulin-like growth factor binding protein-3, skeletal muscle protein catabolism after severe burn, 713
- Intercellular adhesion molecule-1 (ICAM-1), in acute pancreatitis (rat), 834
- Interleukin(s)
- gut cytokine balance in enterally and parenterally fed mice, 662
 - IL-6, response to gut ischemia (rat), 478
- Internal mammary artery, skeletonized internal mammary artery graft in myocardial revascularization, sternal wound infection, 585
- Internal thoracic artery graft, angiographic 20-year follow-up, 154
- Ischemia, intestinal cytokine response to gut ischemia (rat), 478
- Ischemia-reperfusion injury
- intestinal cytokine response to gut ischemia (rat), 478
 - prolonged continuous vs. intermittent vascular inflow occlusion during hemihepatectomy (pig), 376
- Juxtapyloric perforation, cocaine-related, 801
- Knockout technology, murine models of surgical disease, 21
- Lactate metabolism, after hepatectomy, 505
- Laparoscopy
- laparoscopic antireflux surgery
 - anatomic fundoplication failure after, 669
 - quality of life measures, 331
 - laparoscopic-assisted endorectal colon pull-through procedure for Hirschsprung's disease, 678
 - laparoscopic cholecystectomy, complications, 449
 - Editorial*, 458
 - laparoscopic resection and colorectal cancer survival, 487
 - laparoscopy-assisted Billroth I gastrectomy, quality of life after, 49
 - management of benign liver disease, 460
- Lean tissue mass, extremities, after major abdominal surgery, perioperative growth hormone therapy and functional outcome, 298
- Letters to the Editor, 442, 592
- Lidocaine, topical application to skin-harvest sites, effect on pain scores and narcotic requirements, 115
- Lipopolysaccharide, lipopolysaccharide-induced TNF- α release from monocytes, heparin and enoxaparin and, 542
- Liposomes, imaging experimental intraabdominal abscesses with ^{99m}Tc -PEG liposomes (rat), 551
- Liver, alveolar macrophage activation in lung injury associated with acute pancreatitis (rat), 230
- Liver disease
- benign, laparoscopic management, 460
 - chronic, risk of hepatectomy, 210
 - malignant, palliative peripheral hepatojejunostomy for irresectable malignant tumors of liver hilum, 181
- Liver transplantation
- auxiliary partial orthotopic liver transplantation for Crigler-Najjar syndrome type I, 565
 - ischemic-type biliary strictures, reconstructive surgery for, 137
 - orthotopic, for hepatitis C, 824
 - split, 313
- Lung, metastatic disease, soft tissue sarcoma, 602
- Lung cancer

- non-small cell, preoperative staging, FDG-PET vs. computed tomography, 286
- pleural lavage cytology in, 579
- Lung injury, in acute pancreatitis
- alveolar macrophage activation in, role of liver (rat), 230
 - ICAM-1 antibody therapy (rat), 834
 - phospholipase A₂ mediation of nitric oxide production by alveolar macrophages (rat), 385
- Lymphadenectomy
- cervical, in esophageal carcinoma, 62
 - extended retroperitoneal, in radical pancreaticoduodenectomy for periampullary carcinoma, 613
- Lymphatic mapping, in breast cancer, 528
- credentialing issues, 723
 - subareolar vs. peritumoral injection, 860
- Lymphatic system, restoration of lymphatic function after myocutaneous flap transfer (rodents), 421
- Lymphedema, restoration of lymphatic function after myocutaneous flap transfer (rodents), 421
- Lymph nodes, metastasis. *See* Metastatic disease
- Macrophage(s). *See* Alveolar macrophages
- Malignancy, risk, pheochromocytoma, extraadrenal vs. adrenal, 755
- Manometry, contractility of denervated stomach used as esophageal substitute, effect of erythromycin, 337
- Merkel cell carcinoma, surgical management, 97
- Meta-analysis
- enteral nutritional supplementation with key nutrients, 467
 - routine drainage of colorectal anastomoses, 174
- Metabolism
- glucose and lactate metabolism after major hepatectomy, 505
 - muscle protein catabolism after severe burn, 713
- Metastatic disease
- cervical lymph node metastasis in esophageal carcinoma, ultrasonographic assessment, 62
 - lymph nodes
 - bile duct cancer, 76
 - cervical lymph node metastasis in esophageal carcinoma, 62
 - in medullary thyroid carcinoma, 880
 - pulmonary, soft tissue sarcoma, 602
 - sentinel node metastasis in breast cancer, likelihood of nonsentinel node metastasis, 536
 - survival in gastrointestinal tract carcinoids, 815
- MIB-1 index, prognostic value in ampulla of Vater carcinoma, 523
- Molecular genetics, identification of familial adenomatous polyposis coli families, 350
- Monoclonal antibody(ies), ICAM-1 antibody therapy in acute pancreatitis (rat), 834
- Monocyte(s)
- HLA-DR expression, in posttraumatic sepsis, 246
 - lipopolysaccharide-induced TNF- α release, heparin and enoxaparin and, 542
- Morbidity and mortality
- conversion from open to closed surgical ICU, 163
 - distal pancreatectomy, 693
 - enteral nutritional supplementation with key nutrients, 467
 - hepatectomy for hepatocellular carcinoma, zero hospital mortality rate, 322
 - percutaneous drainage of pancreatic pseudocysts, 781
 - periampullary carcinoma, standard vs. radical pancreaticoduodenectomy, 613
 - stented vs. nonstented pancreaticojejunostomy after pancreatoduodenectomy, 41
- Morton, William, 187
- Mucosal immunity
- gut cytokine balance in enterally and parenterally fed mice, 662
 - nutritional influences on antibacterial respiratory tract immunity (mice), 272
- Multiple organ dysfunction syndrome (MODS), posttraumatic, predictive value of disseminated intravascular coagulation and sustained systemic inflammatory response syndrome, 121
- Multiple organ failure, lymphatic translocation of bacteria/endotoxin via thoracic duct, 128
- Muscle wasting
- after major abdominal surgery, perioperative growth hormone therapy and functional outcome, 298
 - skeletal muscle protein oxidative damage after burn injury (rat), 106

 - laparoscopic-assisted endorectal colon pull-through procedure for Hirschsprung's disease, 678
 - laparoscopic management of benign liver disease, 460
 - Merkel cell carcinoma, 97
 - modified Rossetti fundoplication in children, 774
 - palliative peripheral hepatojejunostomy for irresectable malignant tumors of liver hilum, 181
 - prolonged continuous vs. intermittent vascular inflow occlusion during hemihepatectomy (pig), 376
 - reexploration for periampullary carcinoma, 393
 - stented vs. nonstented pancreaticojejunostomy after pancreaticoduodenectomy, 41
- Surgical intensive care unit
- closed, an unacceptable concept (*Editorial*), 172
 - conversion from open to closed unit, 163
- Survival
- colorectal cancer, laparoscopic resection and, 487

- gastrointestinal tract carcinoids, 815
Merkel cell carcinoma, 97
periampullary carcinoma, standard vs. radical pancreaticoduodenectomy, 613
pheochromocytoma, extraadrenal vs. adrenal, 755
pulmonary metastases from soft tissue sarcoma, 602
rectal cancer, locally advanced, 745
trauma center experience, survival, and resource utilization, 409
Swedish Rectal Cancer Trial, survival and local failure rates after preoperative radiotherapy, 493
Systemic inflammatory response syndrome, sustained, predictive value in posttrauma multiple organ dysfunction syndrome, 121
- Tachygastria, delayed gastric emptying after Billroth I pylorus-preserving pancreaticoduodenectomy, cisapride therapy, 223
Tacrolimus, in orthotopic liver transplantation for hepatitis C, 824
Technetium-99m
imaging experimental intraabdominal abscesses with ^{99m}Tc-PEG liposomes and ^{99m}Tc-HYNIC IgG (rat), 551
lymphatic mapping with ^{99m}Tc sulfur colloid, 860
Tetany, postoperative, in Graves disease, 237
Thoracic duct, lymphatic translocation of bacteria/endotoxin in multiple organ failure, 128
Thyroid carcinoma, medullary, nodal metastases, 880
Thyroidectomy, parathyroid autotransplantation during (*letter*), 594
Tissue repair/remodeling, in Crohn's disease, transforming growth factor- β isoforms and their signaling receptors in, 67
T lymphocyte(s)
HLA-DR expression, in posttraumatic sepsis, 246
in vivo T-cell response to cardiac allograft transplantation (mice), 570
Transforming growth factor- β isoforms, in Crohn's disease, 67
Transgenic technology, murine models of surgical disease, 21
Transplantation
cardiac, in vivo T-cell response to cardiac allograft transplantation (mice), 570
immunology, transgenic and knockout mice models, 21
liver
auxiliary partial orthotopic liver transplantation for Crigler-Najjar syndrome type 1, 565
ischemic-type biliary strictures after, reconstructive surgery for, 137 split, 313
simultaneous kidney-pancreas transplantation with portal-enteric drainage, 701
spleen autotransplantation, humoral immune response to pneumococcal capsular polysaccharide immunization, 279
- Trauma
burn injury. *See* Burn injury
multiple organ dysfunction syndrome, predictive value of platelet count, 121
sepsis after, HLA-DR expression in, 246
thoracic, epidural vs. parenteral opioid analgesia, 684
wound cell immune function after trauma-hemorrhage, wound infection and (mice), 651
Trauma care
effect of patient complexity on costs and profit margins of trauma service, 807
trauma center experience, survival, and resource utilization, 409
Tumor(s)
carcinoid, gastrointestinal tract, 815
desmoid, 866
hepatic
laparoscopic management, 460
palliative peripheral hepatojejunostomy for irresectable malignant tumors of liver hilum, 181
size, likelihood of nonsentinel node metastasis in breast cancer, 536
Tumor necrosis factor- α
lipopolysaccharide-induced TNF- α release from monocytes, 542
organ apoptosis early after burn injury (mice), 851
response to gut ischemia (rat), 478
- Ultrasonography
accuracy of endosonography in differential diagnosis of polypoid lesions of gallbladder, 498
anal ultrasound in men with fecal incontinence, 739
cervical lymph node metastasis in esophageal carcinoma, 62
- Vitamin D, postoperative tetany in Graves disease, 237
- Warren, John Collins, 187
Wilms tumor, prognostic factors for local recurrence, 292
Wire-localized biopsy, breast, mammographically guided, 625
Wound healing, transgenic and knockout mice models, 21
Wound infection
sternal, skeletonized internal mammary artery graft in myocardial revascularization, 585
in trauma patient, wound cell immune function after trauma-hemorrhage (mice), 651
